

The Gardens will be converting to a Winter Schedule beginning November 1st. After researching past years, the staff and the board agree that, as the plants take a rest, it's the perfect time for us to get busy repairing and maintaining the gardens and planning for the upcoming season. In the interest of keeping costs down during our slowest time of the year, our Gift Shop will only be open on weekends through the holidays and various special days through February. Our business office will remain open Tuesday thru Friday from 10a to 4p and we will still be accepting reservations for tours, facility rentals, and most exciting...we will be offering some new classes for kids when they're not in school! Our members are welcome to pre-arrange visits during the above business hours. Now more than ever, our volunteers are the heartbeat of this organization and we need your ongoing support! We still depend on you all year long!
